BUSINESS MODEL Of GATI

Express Distribution and Supply Chain Solutions:

- Gati's core business revolves around providing express distribution services for parcel and cargo shipments across India.
- This includes door-to-door delivery of packages, documents, and freight through various modes of transportation, including road, air, and rail.

Warehousing and Inventory Management:

- The company offers warehousing and storage solutions to help businesses manage their inventory effectively.
- These warehouses are strategically located to optimize the distribution process and reduce delivery times.

Technology Integration:

- Gati leverages technology to enhance its services. Online tracking systems, real-time updates, and mobile applications are used to provide customers with visibility and control over their shipments.

Customized Solutions:

- It provides customized logistics solutions for businesses with specific requirements, ensuring that their goods are transported and delivered efficiently.
- This includes temperature-sensitive cargo, specialized handling, and time-critical deliveries.

Value-Added Services:

- Gati provides value-added services like reverse logistics, cash-on-delivery, and pick-up services, catering to the diverse needs of its clients.
